

Session	JAXA Earth Observation Data Distribution System		
Overview	<p>This session aims to communicate with users who use (or are interested in using) JAXA Earth Observation Data Distribution System.</p> <p>Three systems will be introduced and questions/comments will be welcomed. Especially for "G-Portal", we would like to ask you to fill in the questionnaire sheet (to be provided with other workshop materials). If you hand the sheet to the JAXA person at the exit of this session room, you can get a little gift. Also you can use the designated boxes located in each session room (but no gift is available for this option).</p>
